TRANSITIONAL HOUSING SHELTER

Programs that provide extended shelter and supportive services for homeless individuals and/or families with the goal of helping them live independently and transition into permanent housing. Some programs require that the individual/family be transitioning from a short-term emergency shelter. The length of stay varies considerably by program. It is generally longer than two weeks but typically 60 days or more and, in many cases, up to two years or more. The supportive services may be provided directly by the organization managing the housing or may be coordinated by them and provided by other public or private agencies. Transitional housing/shelter is generally provided in apartment style facilities with a higher degree of privacy than short-term homeless shelters; may be provided at no cost to the resident; and may be configured for specialized groups within the homeless population such as people with substance abuse problems, homeless mentally ill, homeless domestic violence victims, veterans or homeless people with AIDS/HIV.
